About This Game

Orphan Age is a **life-sim game** where you **look after a band of orphans** in a **cyberpunk warzone**.

Set against the backdrop of an unforgiving, **neon-lit dystopian warzone**, your only battle is the fight for survival, scraping out a living in the face of extreme danger. You will **guide a band of orphans**, each with their own skills, emotions, strengths, weaknesses and fears, through a **dangerous and ever-changing city** in a bitter struggle for survival. Constantly **balancing risk and reward**, you must make the big decisions to **ensure the group stays alive**. **Build** up your base, **scavenge**, **craft** and **explore** the city for new recruits, whilst ensuring there are enough supplies to **keep going**, even when it seems **all hope might be lost**.

A DYSTOPIAN TAKE ON THE LIFE SIM GENRE

ADAPT TO THE UNIQUE CHARACTERS, NEEDS AND SKILLS OF THE ORPHANS

BUILD YOUR BASE TO TURN A WARZONE INTO A PLAYGROUND

CRAFT THE TOOLS YOU NEED TO KEEP THE GROUP TOGETHER

SCAVENGE FOR SUPPLIES IN A DANGEROUS, PROCEDURAL CITY

CAREFULLY MANAGE RESOURCES TO HELP THE GROUP SURVIVE

TWO GAME MODES FOR MAXIMUM REPLAY VALUE: A FOUR ACTS SINGLE PLAYER CAMPAIGN AND SANDBOX MODE

BENDING THE 4X GENRE INTO 4E

Orphan Age plays as a single player campaign with a lot of replayability inspired by the 4X genre. But there's a twist! 4X stands for **Exploration**, **Exploitation**, **Expansion** and **Extermination**. In Orphan Age, we replace Extermination with **Empathy**, bending the 4X genre into a 4E.

EXPLORATION

The city of Orphan Age is ever-changing and procedural. You won't find the same building twice. There are **high risks and high rewards** when you **explore**. You can find **rare resources**, **Orphans to recruit**, but you can also get wounded or worse...

Exploration is similar to the expeditions of Fallout Shelter: procedural text adventures. They offer more complexity though, because you have to make decisive choices while you're out of the orphanage.

EXPLOITATION

Hundreds of resources are left to be scavenged in the Orphanage or in the city. They are classified in **6 categories** that allow you to eat, drink, take care of wounds and to craft the items and resources you need to build your Orphanage.

The Orphanage is the place your Orphans call home. The **environment** surrounding the Orphans greatly affects their moods. Try to keep the rooms lit, warm, furnished and clean for the happiness of all!

There are **38 different items of furniture to build** (beds, playgrounds, science mats, campfire, heaters...) and each one can be **upgraded**.

Research allows you to discover better furniture and improve living conditions for the orphans.

Orphan Age is a **deep micro-simulation** making each Orphan unique in personality and in gameplay. The Orphans have **different ages, set of skills, backgrounds and personality traits**. Depending on who they are and how well they are, the Orphans will take **different paths** anytime there is an issue to be discussed.
